# About Us

Trivent Solutions is a full-service Business Consultancy based in Mumbai.

We specialize in Virtual assistance, HR outsourcing, Marketing, and Sales strategies and a host of other services. We are a pioneering consulting firm, partnering with innovative leaders to develop sustainable solutions for the dynamic and uncertain business world today.

The success of an organization depends on the people who work there. Their innovation, determination, and enthusiasm form the foundation from which new concepts, creative ideas, and clever marketing strategies emerge. But this ability can only be optimally utilized if the system conditions are right: That involves workers being able to work together on projects irrespective of when or where, knowledge is easy to find, and processes running efficiently and smoothly

# Sales

It's our business to know how to get your products into the hands of your customers.

We build a team of sales professionals that have the experience, tools, and data science needed to drive sales for your brand. All done with the approach and training to adapt to the evolving customer journey.

We work towards improving and intensifying the sales performance by determining the right procedure and enable us to maximize our team's effectiveness.

Sales enablers, such as the incentives, key performance indicators, systems and tools, and training programs, must also be established to ensure that the sales team has the best support.

# Marketing

Marketing refers to activities a company undertakes to promote the buying or selling of a product or service.

The marketing strategy has changed rapidly and the recent past, with digital, social, and mobile technologies making traditional models of engagement almost outdated.

At Trivent our job is to develop marketing strategies that will direct your resources more efficiently. We merge our commercial expertise in advanced data analytics with a game plan that gets your message in front of the audiences you want to reach.

One of the major challenges of national and global organizations is the ability to tap into local revenue opportunities without compromising brand and regulatory requirements.

From a single market or destination campaign through to local events and national roadshows, each strategy provides an interactive and highly targeted consumer experience designed to deliver increased foot traffic and sales at the local level.

# Customer Support

Businesses need to maintain their costs as low as possible. Hiring full or part-time employees to handle your customers and admin tasks, could be costly and inefficient, especially for small businesses.

We provide Virtual Assistant services (chat assistance, call assistance, email assistance) to you for a very affordable price delivering value for money.

Our virtual assistance is office-based and supervised. We make sure our Virtual

Assistants (Customer Support Representatives) are attentively chosen to match our client's requirements.

# Back Office

The administration of the back office of a company profoundly affects its success. It is true that a vast amount of data is produced from various sources on a regular basis.

Trivent provides end-to-end solutions for businesses searching for back-office facilities that account for a large percentage of the workload

We provide data entry services for various sectors, such as banking and finance, insurance, education, telecommunications, government and public sector, real estate, etc.

# Healthcare & Insurance

Healthcare BPO's are a ray of hope for companies who struggle to handle their services with ease. With our claims processing service, our experts thoroughly review the claims before they are submitted for reimbursement.

Our experts ensure that all knowledge about your patient insurance is always checked. Our solutions help you prevent re-submissions and denials and help you file error-free statements.

Trinvent is one of the best medical data entry outsourcing firms providing top-notch BPO Healthcare services. Our experts can turn around a high amount of work within a short timeframe. We have a versatile and efficient pricing model.

Our Medical Coding Services produce reliable, high-quality results and streamlined operations. Our team provides adept management to ensure that no lags delay the job

# Banking & Financial Surveys

Banking and financial services provide a broad range of tools to help banks change their operations, resulting in enhanced customer experience, better performance, optimized operating costs and new opportunities.

We deliver a wide range of solutions in a highly safe environment. We provide strategic automation, standardization, and process improvement to some of the leading financial institutions and banks, helping them improve productivity

## Media & Telecommunications

Telecommunications outsourcing solutions help telecom companies handle cost pressures, gain access to specialized services, leverage current investments and develop a scalable strategy for maintaining and attracting more customers.

Our contact center facilities are available at a minimum cost to our clients in the field cellular, telecommunications, cable, satellite and telephone services, broadband Internet, Wi-Fi, conventional local and long-distance telephone services.

At Trivent, we ensure that we have creative methodologies, state-of-the-art technology and a professional workforce to optimize your business.

# Research & Surveys

Market research surveys have a key role to play in understanding the actions of the market and making informed decisions for the business.

With our highly qualified and skilled team, we are able to perform market research surveys across various channels, such as mobile, Internet, mail, or a smart combination of these.

We create our own scientific testing methods, including but not limited to the production of questionnaires, survey design, statistics, programming, and data analysis.

*Do you want to solve a business problem? Team Trinvent will always be up!*
